CLAIM AMENDMENTS

1. (Currently Amended) An article enabling a spray bottle to be suspended from an ironing board or other surface, the spray bottle including a neck portion to which a manually operated spray head attaches, the spray head having an upper extent and a forward, manually operated trigger, the article comprising:

a shaped body having a lower end ~~that engages with the~~ with an aperture configured for coupling to a neck of a spray bottle and an upper lip located directly above the aperture for hanging a spray bottle coupled thereto. ~~, such that when the lip is positioned on a surface, the spray bottle hangs therefrom.~~

2. (Canceled)

3. (Currently Amended) The article of claim 1, wherein the body includes a curved back surface ~~opposed to the trigger, enabling a user to comfortably hold and operate the spray bottle with the article attached thereto.~~

4. (Canceled)

5. (Original) The article of claim 1, wherein the upper lip includes a surface or feature to enhance friction or holding capability.
